

When Seconds Count... Better Safe, Than Sorry.

Medical alarm systems from Connect America in partnership with the Easy Living Program, provide peace of mind for the client and their families. Live help is available, round the clock, with just a push of the button.

For those who are more active outside the home or do not have a land line phone, the Mobile Help system is a great solution! This innovative technology utilizes cell service to send emergency signals from anywhere cell service is available. In addition, the mobile system contains GPS location – so even if the senior is not at home the response center can send help to the right location! As with our standard system, there is no equipment to purchase or long term contract to sign. Mobile Help is available for only \$36.95 per month!

- Lifetime warranty
- Easy to use
- No long term contract
- No Activation Fee
- Standard Service \$26.95 per month
- Mobile Service \$36.95 per month
